Logging into eGate from home

eGate.net.au is the elearning gateway for Good News Lutheran School. eGate has been designed by the Centre for Applied Innovation and eLearning to provide staff and students with secure access to our growing suite of online resources.

It has been brought to our attention that some people have been unable to log into the website from their home computers. This is due to a security setting in their web browser. If you are experiencing difficulty logging into eGate, this document will help you resolve the issue. The instructions below will give your browser the permission it needs to access eGate. Check the name of your web browser below to find the instructions.

Internet Explorer
From the top menu, select TOOLS > INTERNET OPTIONS. Then select the PRIVACY tab at the top. Adjust the setting to accept all cookies. Apply this setting change and press OK.

Mozilla Firefox
From the drop-down menus at the top, locate and select the PREFERENCES. Then select the PRIVACY tab at the top. Make sure you have ticked the option to Accept cookies from sites. You should select the option for Firefox to keep the cookies until they expire. Apply these settings.

Apple Safari
From the drop-down menus at the top, select SAFARI > PREFERENCES. Then select the SECURITY tab at the top. Choose the option to always accept cookies.

Once you change this simple setting you should be able to successfully log into eGate. If you have any other questions or concerns please email helpdesk@goodnews.qld.edu.au
